

**AWAHOU SCHOOL COMMUNITY**  
**3 WAY LEARNING CONVERSATIONS**  
**TERM 1, 2018**  
**Week 9**

Kia ora Awahou School community,

Over the last couple weeks we have been focusing on analysing assessment, goal setting and action planning for Terms 2 and 3 for our students.

In Weeks 9, we would like to meet with parents and students to discuss what our beginning of year assessments and observations have shown us so far, where we want to get before the end of the year, and some of our plans for how we're going to get there. During these conversations we can also show you how to navigate your child's Learning as Inquiry document from home, to enable your input and feedback on your child's learning journey this year.

We would love to see **all** parents and students during this time. It is also vitally important that your children are present for these discussions. These are **learning** discussions, so of course we want the most of important piece of the puzzle there.

If you have concerns regarding your child that you don't feel can be discussed in front of him / her, this is not the forum for that. In these instances, our expected procedure would be that you would make a time to see the classroom teacher when the issues are occurring, rather than waiting until these conversations.

Where there are multiple siblings, we will endeavour to make these appointments at consecutive times. On the sheet attached, please select a **range of times** that suit you best and our teachers will be in touch to let you know when your conversation is.

Kind regards

Matt Schmidt

Principal

Awahou School
